

## New PEAK SMD Type Products -Three new series are available from September 2009

### Two and Three Watt Output Power SMD Type DC/DC Converters

PEAK electronics GmbH introduces two new series. The "PES2" and the "PES3" series.

With wide input range of 9 - 18 V DC and 18 - 36 V DC and regulated outputs from 3.3 V DC up to 15 V DC in a SMD type case.

### Switching Regulator SMD Type "PSRS"

In addition to our switching regulators PSR-78xxLF and PSR1-78xxLF in a SIP3 case with 500 mA and 1000 mA we can now also offer a 500 mA switching regulator with an input of 4.5 - 28 V DC and output of 3.3 to 15 V DC in a SMD type case.

### LED Driver SMD Type "PLED-SD" Series

PEAK electronics has extended the range of LED Drivers. Now available to the already existing types are SMD type LED Drivers with an output current from 300 mA up to 700 mA. Our LED Drivers are available from 300 mA up to 1200 mA, output current in SMD, DIP14, DIP16 and DIP24 cases.

PEAK electronics GmbH is certified for development, production and distribution of DC/DC and AC/DC Converters.

DIN EN ISO 9001:2000  
Certificate Registration No. 01 100 024044
